

## **Ben Ellsworth**

### **2017 Candidate for City Council**

I have lived in Cedar Hills for the past four years and have never felt more at home than in our unique town. From fantastic views to wonderful neighbors, it is, in my opinion, very difficult to find a better place to live. As a member of the Parks, Trails, and Beautification committee, I have been able to provide service to our city that has promoted the beauty of key landmarks. I want to build on this to ensure Cedar Hills continues to be a clean, safe, well-managed, and desirable place to live.

My platform and goals as a member of the Cedar Hills City Council will be to:

1. Preserve our open spaces, including current and proposed parks and trails. Outdoor recreation is second to none in our city, and should stay that way.
2. Our commercial space is our downtown, and that reflects who we are as a city. It should have quality businesses that are destination spots.
3. We need to be smarter in allowing more opportunities to use our Community Recreation Center. I would like to see more access given to residents for community activities and events.

With your vote, I will ensure your voice is heard. Thank You!
