

Jenney Rees

2017 Candidate for Mayor

I have served on the City Council since 2012 and would be honored to serve as mayor. My husband and I have four children; three daughters still at home and a son who is serving in the US Navy. We love Cedar Hills and are happy to call it home.

As mayor I will focus on communication and transparency, fiscal responsibility, planning for our commercial zone and infrastructure needs, and promoting community. Over the past six years my communication efforts include posting my Council notes online, engaging with residents through social media, and developing the annual State of the City report. On fiscal responsibility, we reduced the city's debt by refinancing bonds at lower rates and have budgeted for infrastructure projects and maintenance to avoid costly debt.

My commitment as mayor is to be accessible to residents to discuss ideas and concerns. I will work with staff and the City Council to make wise financial decisions that benefit our city, maintain high levels of service, and prepare for the future. Working together with residents I will promote community by continuing with our traditions while exploring new opportunities to bring our city together.
