

Maurice Navarro

2017 Candidate for City Council

I grew up in Miami, Florida, and I earned an AB from Dartmouth College with a concentration in Biology. During my college years I met the wonderful woman who would become my wife. We have three beautiful daughters, aged five and under. Cedar Hills had been on our radar for several years. We loved its tranquility, its beautiful parks, and its location right next to American Fork Canyon. I golfed here a few times, and couldn't help but enjoy its majestic view of the mountains. We have now lived in Cedar Hills for almost three years, and hope to be here for many more.

I have been serving as a member of my HOA's board for two years now and as its president for one year. I gained valuable experience and insight that I know will carry over as a member of the City Council.

1. I aim to be fiscally responsible and make sure that every project is carefully looked at.
2. I want to grow our commercial side and attract more businesses.
3. I will listen to the residents and make sure they're well represented.

I look forward to helping Cedar Hills grow and become more wonderful.
